

Rolling Kevlar Joiner Housing Tubes

MD 5 May 02

1/2 mil waxed Mylar around joiner rod,
applied with vaseline

put overlap on bottom as shown

Cabosil to adhere glass

roll on table

+/-45 Kevlar

0/90 0.75 oz glass,
1/2" bigger than Kevlar
on all four sides

Spiral wrap with 1" wide 1 mil polyethylene strip
(note direction)

Spiral wrap tightly with stretchy tape
(masking, electrical...) for compaction,
or use vacuum bag

When cured, slide everything off on vaseline layer,
and twist out the mylar (that's why the wax was used)
