Battery and RX are wrapped in 1/16 polyethylene foam.

Antenna is looped forward to maximize length.

Grain is fore-aft on fuselage sides, top, bottom.

Pushrods must be held down everywhere against buckling.

Spiral wrap 0.75 oz glass 5/8 → 1/2 wide, 20” long. Apply minimal resin, blot, wrap with polyethylene for smoothness.

Alternative RX pack: 3 1/3 AA 110 mAh (21 g)

Hard balsa edges at open bay (strongly recommended).

Glass top and bottom over bolt insert.

Pushrods must be held down everywhere against buckling.

Spiral wrap 0.75 oz glass 5/8 → 1/2 wide, 20” long. Apply minimal resin, blot, wrap with polyethylene for smoothness.

Pushrods must be held down everywhere against buckling.

Spiral wrap 0.75 oz glass 5/8 → 1/2 wide, 20” long. Apply minimal resin, blot, wrap with polyethylene for smoothness.

Pushrods must be held down everywhere against buckling.

Spiral wrap 0.75 oz glass 5/8 → 1/2 wide, 20” long. Apply minimal resin, blot, wrap with polyethylene for smoothness.

Pushrods must be held down everywhere against buckling.

Spiral wrap 0.75 oz glass 5/8 → 1/2 wide, 20” long. Apply minimal resin, blot, wrap with polyethylene for smoothness.

Pushrods must be held down everywhere against buckling.

Spiral wrap 0.75 oz glass 5/8 → 1/2 wide, 20” long. Apply minimal resin, blot, wrap with polyethylene for smoothness.

Pushrods must be held down everywhere against buckling.

Spiral wrap 0.75 oz glass 5/8 → 1/2 wide, 20” long. Apply minimal resin, blot, wrap with polyethylene for smoothness.

Pushrods must be held down everywhere against buckling.

Spiral wrap 0.75 oz glass 5/8 → 1/2 wide, 20” long. Apply minimal resin, blot, wrap with polyethylene for smoothness.

Pushrods must be held down everywhere against buckling.

Spiral wrap 0.75 oz glass 5/8 → 1/2 wide, 20” long. Apply minimal resin, blot, wrap with polyethylene for smoothness.

Pushrods must be held down everywhere against buckling.

Spiral wrap 0.75 oz glass 5/8 → 1/2 wide, 20” long. Apply minimal resin, blot, wrap with polyethylene for smoothness.

Pushrods must be held down everywhere against buckling.

Spiral wrap 0.75 oz glass 5/8 → 1/2 wide, 20” long. Apply minimal resin, blot, wrap with polyethylene for smoothness.

Pushrods must be held down everywhere against buckling.

Spiral wrap 0.75 oz glass 5/8 → 1/2 wide, 20” long. Apply minimal resin, blot, wrap with polyethylene for smoothness.
